6. Drag region again to filter shelf.
7. In filter dialogue box:
 - Mark only West
 - Uncheck Central
 - Uncheck East
 - Uncheck South
8. Click ok.

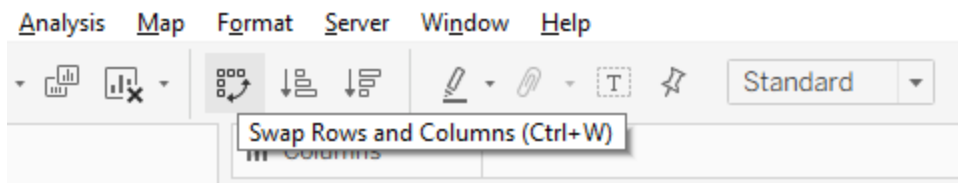

Output:

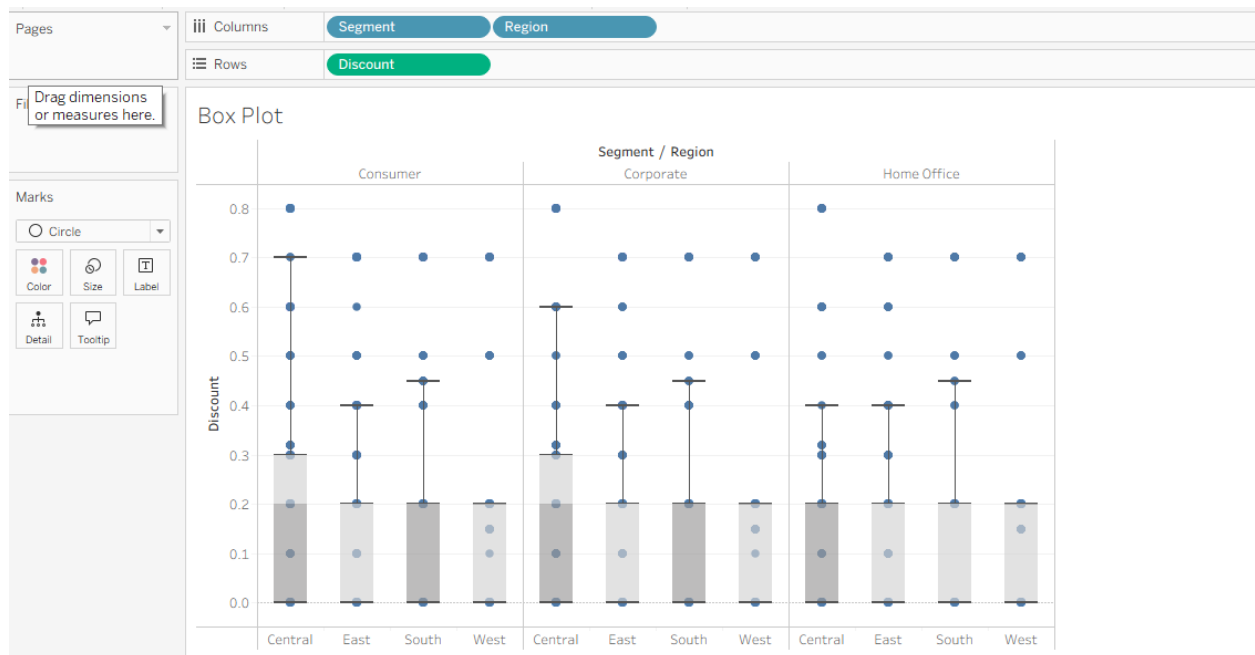

Box Plot:

Steps to create box Plot in tableau:

1. Drag segment to column shelf.
2. Drag discount to row shelf.
3. Click on discount in row shelf.
4. Go on to Measure (sum), change aggregation to average.
5. Drag region to column shelf and drop it on to the right of segment.
6. Click show me in tool bar, select box and whisker plot.
7. From marks card, drag region back to column shelf right side of segment.
8. Go to analysis menu in toolbar and uncheck aggregate measures.
9. Click swap rows and columns button.

Output:

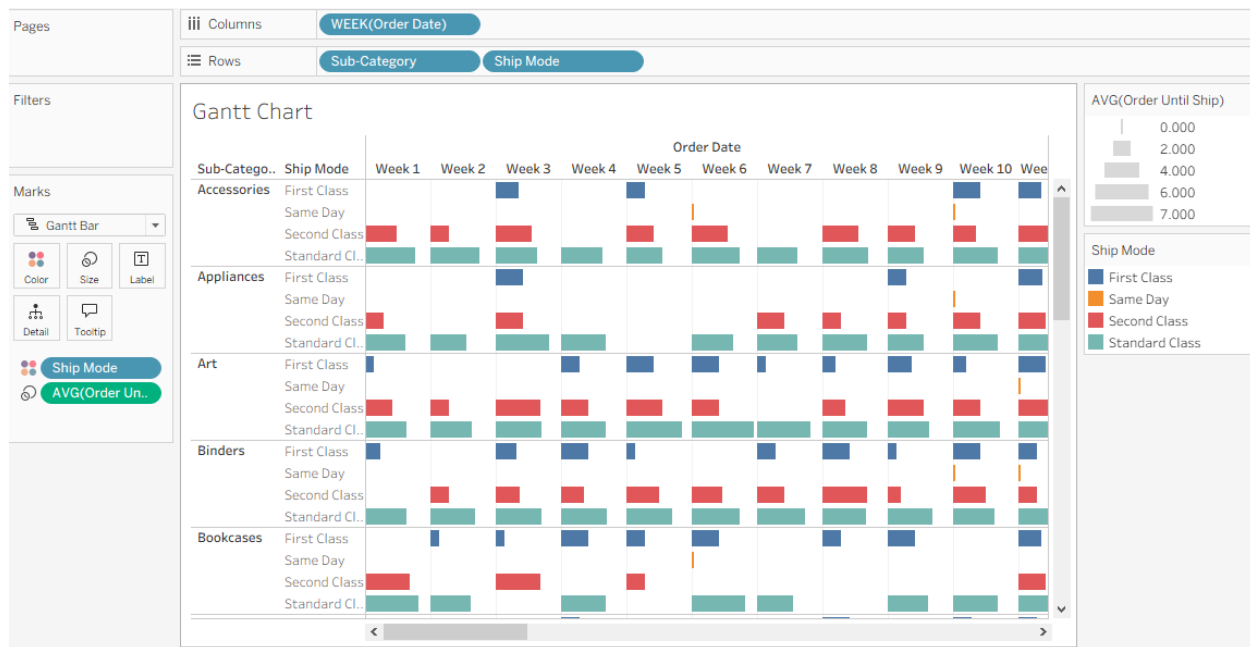

Gantt chart:

Steps to create Gantt chart in tableau:

1. Drag order date to columns.
 - It automatically shows YEAR (order date).
2. Click drop- down arrow on year (order date).
Select: More- > Week number
Now it displays weekly timeline.
3. Drag sub- category to row shelf.
4. Drag ship mode to row shelf on the right side of sub- category.
5. Click drop- down menu on marks card.
6. Select Gantt bar.
7. Go to Analysis click on create calculated field.
 - Name: Order Until Ship
 - Formula: DATEDIFF ('day', [order date], [ship date])
 - Click ok.
8. Drag order until ship to size in marks card.
9. In marks card, right click on SUM(Order Until Ship)
Select: Measure- > Average
10. Drag ship mode to color in marks card.

Output:

Heat map:

Steps to create heat map in tableau:

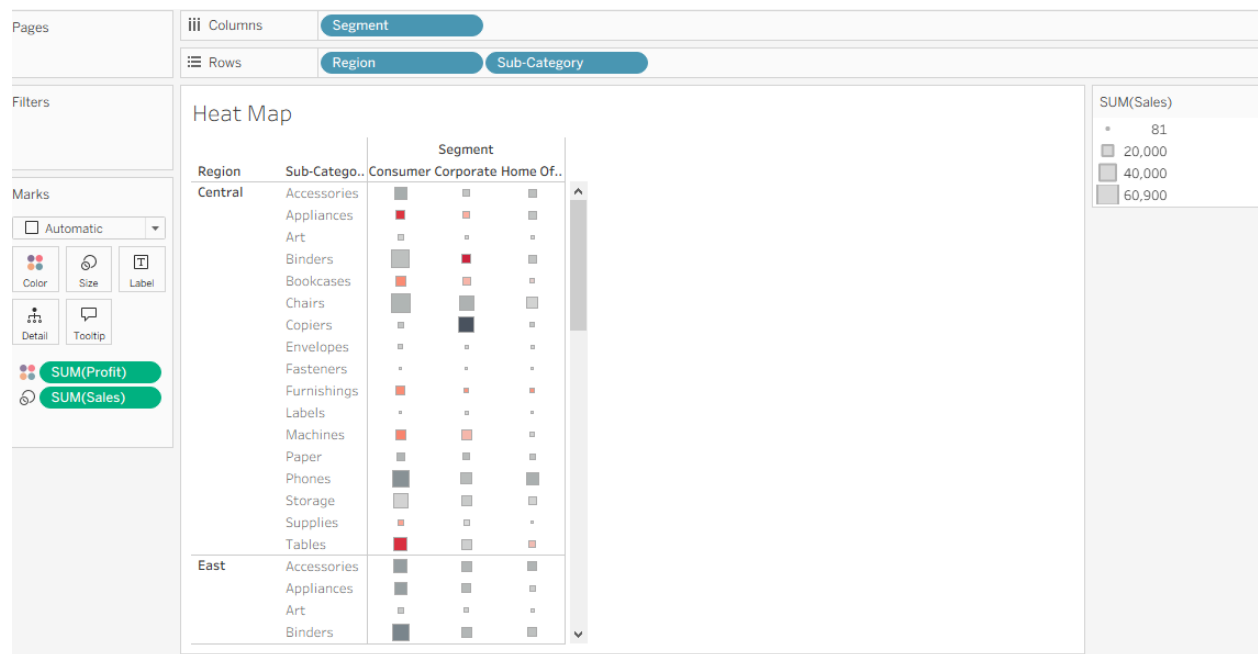

1. Drag segment to column shelf.
2. Drag region to row shelf.
3. Drag sub- category to row shelf and place it on right side of region.
4. Drag profit and drop it on color in marks card.
5. Click color in marks card, choose "medium grey" under border.
6. Click drop- down arrow on profit color legend.
7. Select edit colors.

In dialogue box:

- Palette- >Red- Black diverging
- Mark "Use full coverage"
- Click apply
- Click ok.

8. Drag sales and drop it on size in marks card.
9. Click size in marks card, move slider towards right until boxes fit properly.

Output:

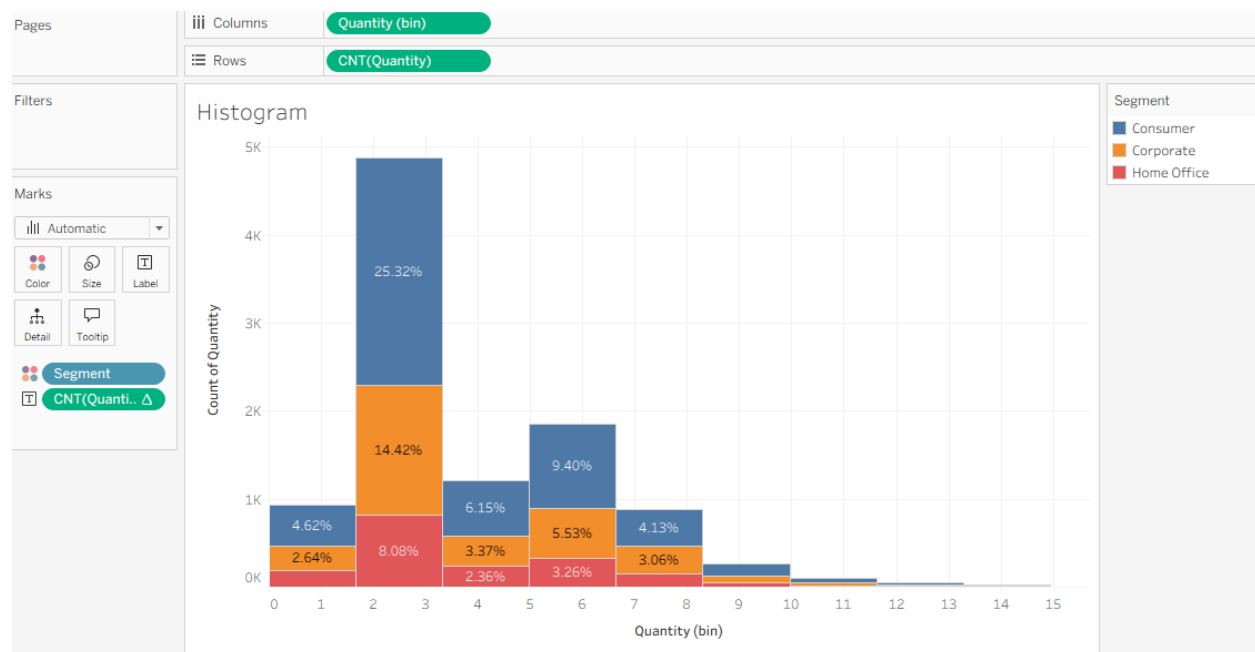

Histogram:

Steps to create histogram in tableau:

1. Drag quantity to column shelf.
2. Click show me on top right corner and select histogram.
 - X- axis represents quantity bins
 - Y- axis represents count of orders
3. Drag segment and drop it on color in marks card.
4. Hold ctrl and drag CNT (Quantity) from rows to label in marks card.
5. Right click on CNT (Quantity) in marks card.

Select: Quick table calculation- > percent of total

Output:

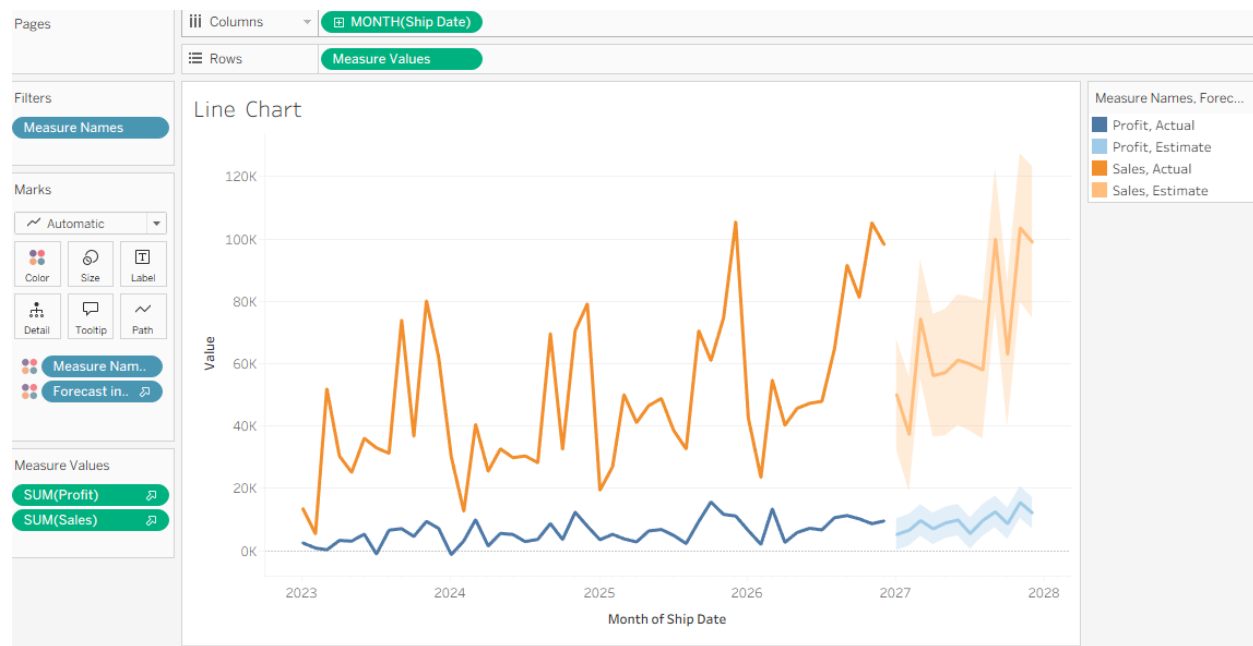

Line chart:

Steps to create line chart in tableau:

1. Drag ship date to column shelf.
2. Drag sales to row shelf.
3. Drag profit and place it on right side of sales in row shelf.
 - Now it create two separate axes:
 - Sales axis
 - Profit axis
4. Drag SUM (Profit) from row shelf and drop it on sales axis.

Select: Month (lower continuous section)
6. Click on Analytics pane.
7. Drag forecast and drop it on chart area.

Output:

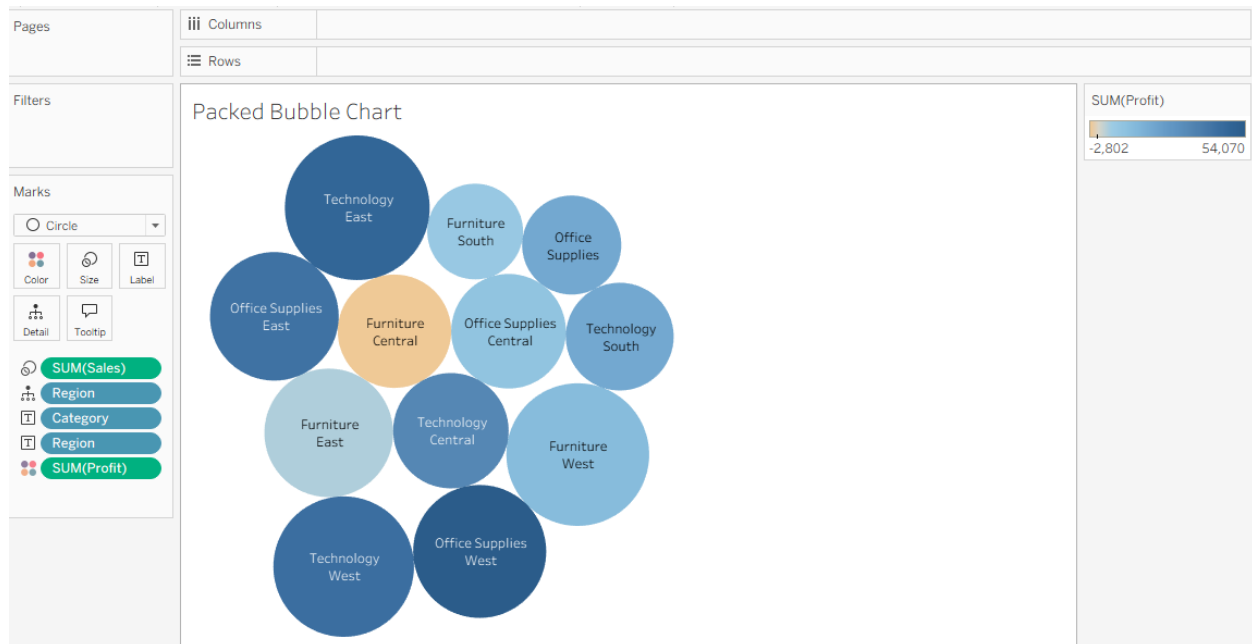

Packed bubble chart:

Steps to create packed bubble chart in tableau:

1. Drag category to column shelf.
2. Drag sales to row shelf.
3. Click on show me in top right corner.
4. Select packed bubble chart.
5. Drag region and drop it on detail in marks card.
6. Drag profit and drop it on color in marks card.
7. Drag region and drop it on label.

Output:

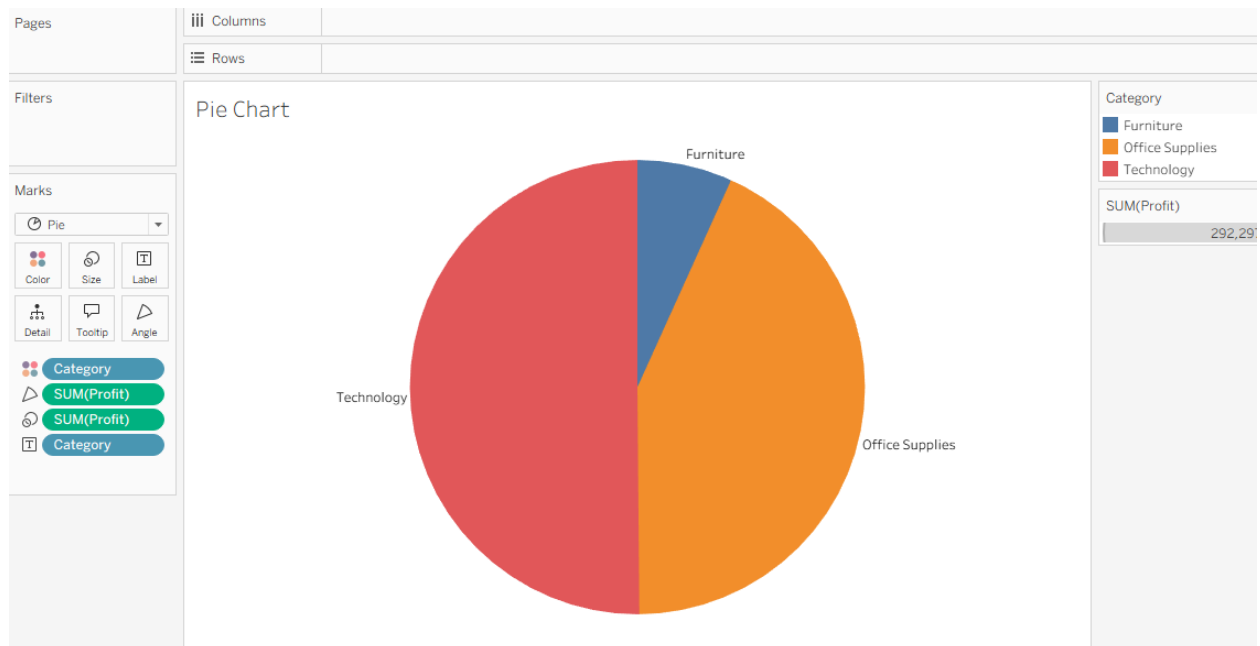

Pie chart:

Steps to create pie chart in tableau:

1. Drag profit to column shelf.
2. Drag category to row shelf.
3. Click on show me in top right corner and select pie chart.
4. Click fit menu (tool bar) and select entire view.
5. Click on size in marks card and move the slider towards right side so that its size increases.
6. Drag category and drop it on label in marks card.

Output:

Scatter plot:

Steps to create scatter plot in tableau:

1. Drag sales to column shelf.
2. Drag profit to row shelf.
3. Drag category and drop it on color in marks card.
4. Drag region and drop it on detail in marks card.
5. Click on analytics pane, drag trend line and drop it on chart.

Select: Linear

Output:

1.

Text table with percentages:

Steps to create text table with percentages in tableau:

2. Drag order date to column shelf.
3. Drag sub- category to row shelf.
4. Drag sales and drop it on text in marks card.
5. Drag region to row shelf and drop it on left side of sub- category.
6. Right click on SUM (Sales) in marks card.

Select: Add table calculation

7. In dialogue box:

Calculation type: Percent of total

Compute using: Pane (down) then click ok

Output:

Tableau interface showing a text table with percentages. The Columns shelf has YEAR(Order Date) and the Rows shelf has Region and Sub-Category. The Marks card shows SUM(Sales) with a table calculation dropdown set to 'Automatic'. The resulting table shows percentages of total sales for each sub-category within each region across the years 2023 to 2026.

Region	Sub-Catego...	Order Date			
		2023	2024	2025	2026
Central	Accessories	4.27%	7.58%	7.27%	7.39%
	Appliances	3.52%	4.84%	4.05%	6.04%
	Art	0.79%	1.10%	1.02%	1.55%
	Binders	15.28%	5.73%	10.19%	14.31%
	Bookcases	1.77%	8.07%	5.64%	3.81%
	Chairs	19.99%	17.41%	15.74%	16.15%
	Copiers	3.15%	12.45%	11.78%	2.49%
	Envelopes	1.54%	0.85%	0.65%	0.81%
	Fasteners	0.12%	0.09%	0.17%	0.22%
	Furnishings	2.44%	2.46%	3.45%	3.44%
	Labels	1.01%	0.30%	0.34%	0.40%
	Machines	15.69%	1.80%	1.79%	4.05%
	Paper	2.26%	3.45%	3.61%	4.22%
	Phones	9.56%	18.82%	13.39%	15.70%
	Storage	10.68%	8.10%	8.63%	9.28%
East	Supplies	0.42%	0.32%	2.89%	2.98%
	Tables	7.50%	6.67%	9.37%	7.16%
	Accessories	4.47%	11.40%	3.41%	6.85%
	Appliances	4.53%	4.26%	5.22%	5.73%
	Art	1.01%	1.13%	1.11%	1.27%
	Binders	5.40%	9.18%	10.81%	6.84%

Tree map:

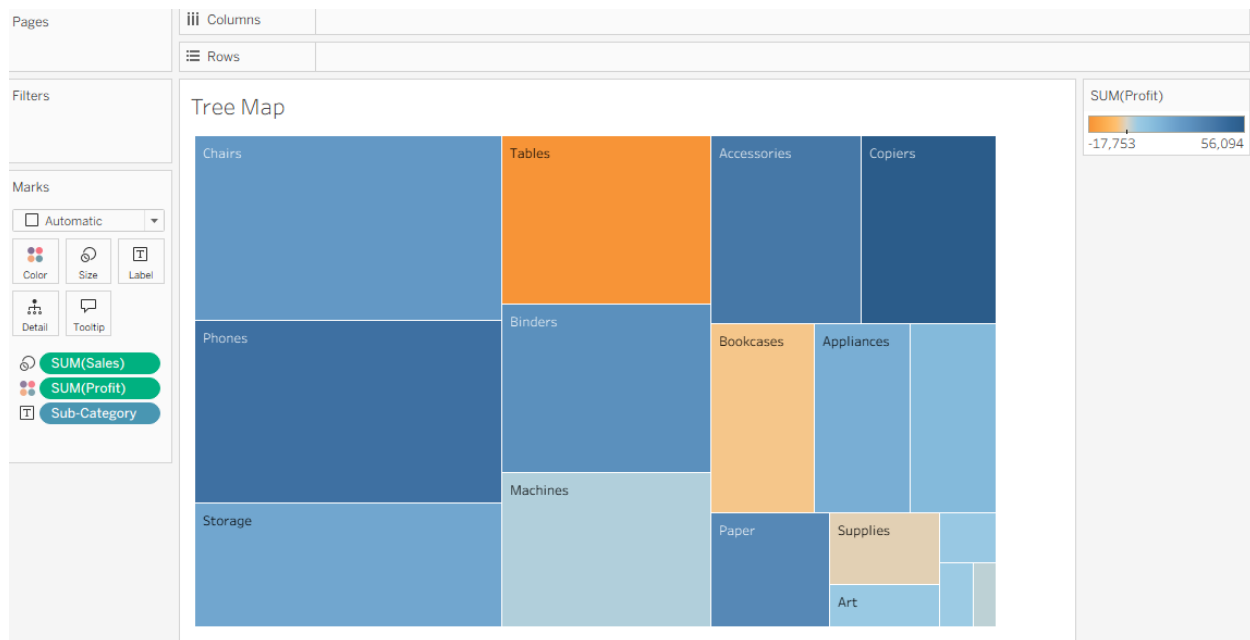

Steps to create tree map in tableau:

1. Drag sub- category to column shelf.
2. Drag sales to row shelf.
3. Click on show me in top right corner and select tree map.
4. Drag ship mode and drop it on color in marks card.
5. If you want profit analysis:

Click undo to remove ship mode.

Drag profit and drop it on color.

Output:

Donut chart:

Steps to create donut chart in tableau:

1. Go to analysis menu and select create calculated field.
2. Name the field as zero, in the formula area type '0'.
3. From the measure selection, drag zero to row shelf.
4. Click automatic in marks card and select pie.
5. Choose fit from tool bar, select entire view.
6. Click size in marks card and increase the slider.
7. Again drag zero from measure to row shelf, place it on right side of first SUM (zero).

Now two pie charts will appear.

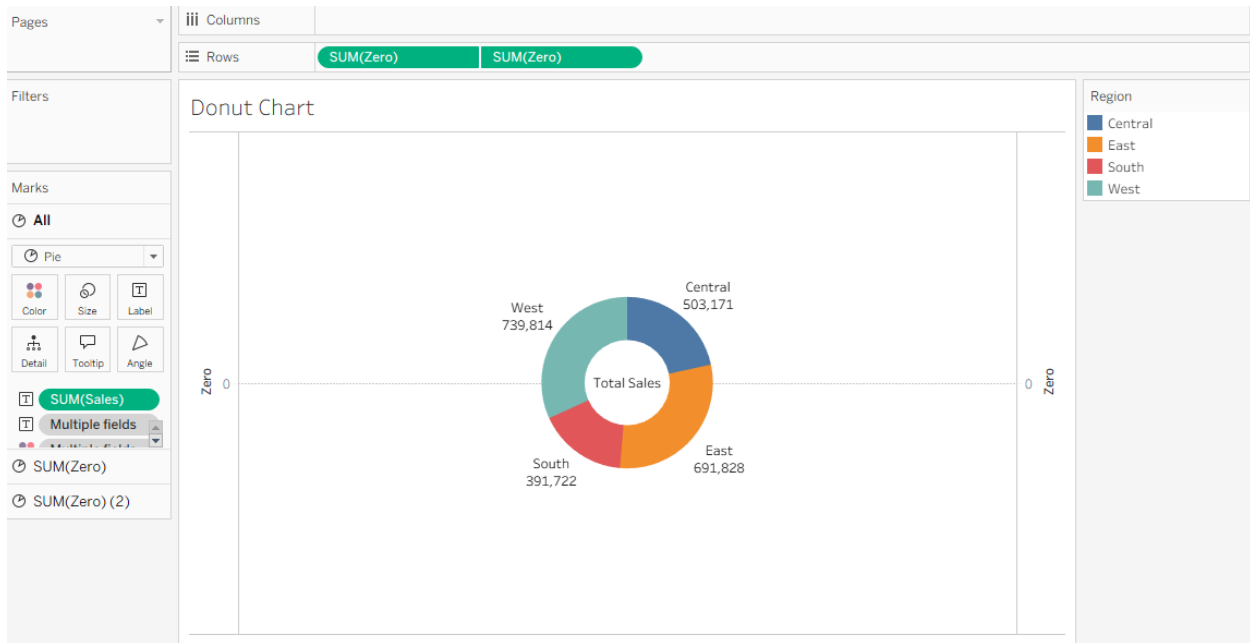

8. Right click on second SUM (zero) and select dual axis.
9. Click on second SUM (zero) marks card, click size and reduce it slightly.
10. Click on color and select white color.
11. Click on first SUM (zero) marks card and drag region to color.
12. Drag region to label in marks card, drag sales to label, drag sales to angle.
13. Click second SUM (zero) marks card, drag sales to label.

Click label- > Text

Click three dots (...) beside text editing.

Type: Total sales click ok.

Output:

Map chart:

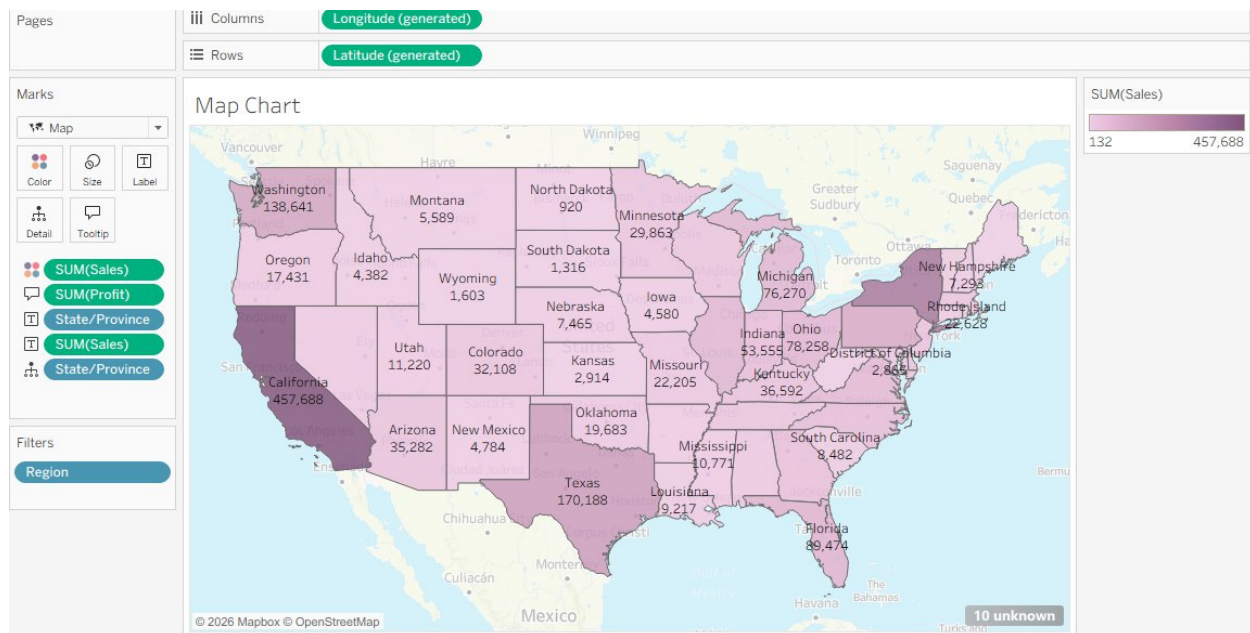

Steps to create map chart in tableau:

1. Drag state to work space.
2. Drag sales to color in marks card.
3. In marks card, click automatic and select map.
4. Click color in marks card, select edit colors and choose a color palette (purple) then click ok.
5. Drag state to label, drag sales to label.
6. Drag region to filter shelf and select all regions, click ok.
7. Drag profit to tool tip in marks card.
8. In tool bar, go to map- > map layers.

Adjust:

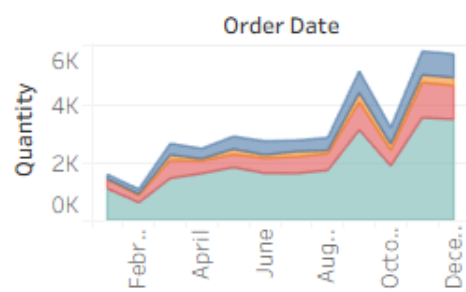

- Background style (outdoors)
- Washout (70%)
