2.2 – Empathy Map Canvas

An Empathy Canvas helps us understand what customers need want and feel when it comes to product placement. This helps businesses put their products in the place make customers happy and sell more.

Goal:

I want to find what I'm looking for fast get a deal and have a smooth shopping experience.

Says :

- I want to find products.

- I look for discounts and deals.
- I like it when shelves are well-organized.

Thinks :

- Is this product worth it?
- Are there options?
- Why is this product here?

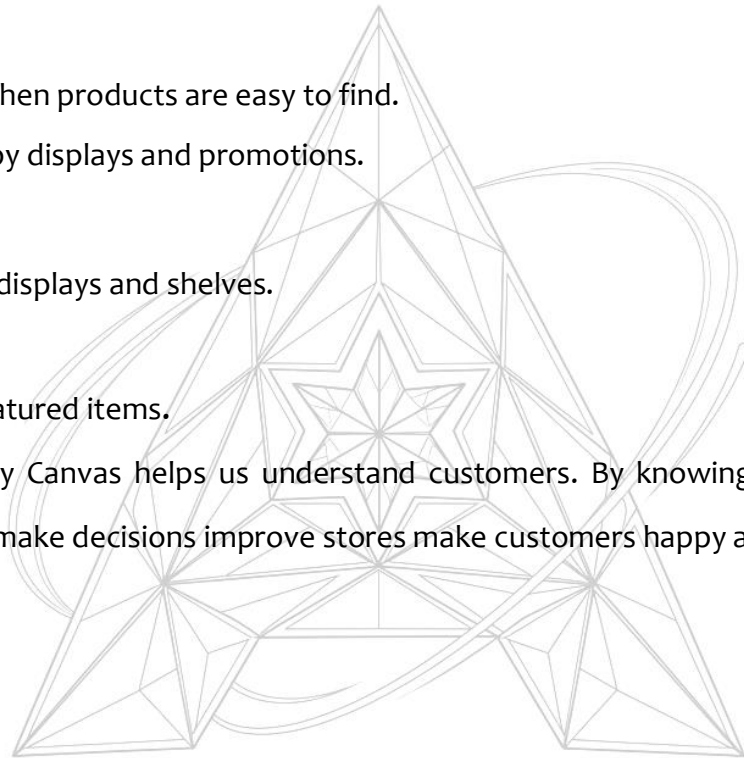

Feels :

- Happy when products are easy to find.
- Excited by displays and promotions.

Sees :

- Product displays and shelves.
- Banners.
- New. Featured items.

The Empathy Canvas helps us understand customers. By knowing what they want businesses can make decisions improve stores make customers happy asnd sell more.
